

CURRICULUM VITAE

CORINNE MORRISON

I have more than thirty years working experience in construction, surveying, cartography, and health and safety. During this time I have worked in the public and private sectors, nationalised industries and been involved in projects in commercial, industrial, leisure, retail, office and residential fields.

As planning supervisor and health and safety advisor/ coordinator I have been involved in demolition, new build and refurbishment projects ranging from £10,000 - £30 million for corporate clients, individual clients, schools and main and sub contractors.

MORRISON ASSOCIATES

1995 to Date I joined Morrison Associates full time in 1995 and continued to help develop health and safety advice. In April 1999 the company became limited and I became a director and the company secretary. As the business has grown to currently employ seven staff I am also responsible for human resources and marketing as well as specialising in planning supervision CDM advice.

1993 to 1995 I worked for Morrison Associates in a part time / freelance capacity when the company was first set up providing support in site survey, health and safety and an accounts / administration role.

1993 to 1995: I was employed by the MEB (Midlands Electricity Board) as team leader / manager in their drawing offices in Erdington. My daily role was both site survey and office based. My additional training and development there was in the role of facilitator in dispute resolution. One of my roles was health and safety development regard to office and job specific risk assessments. I also trained in computer aided design and helped in the data capture of existing records into electronic format

THE UCE (University of Central England)

1990-1993: Technology based degree course involving insets in industry and placements in schools as well as training and research into the design and technology of structures, alternative energy, communication and management of people.

FREELANCE

1977 - 1990: Freelance draftsman / surveyor for a variety of short and longer term contracts

BIRMINGHAM CITY COUNCIL

1975 to 1977 During my time spent with the City I worked as part of the survey team with the Engineers and Highways and Urban Renewal Departments. The majority of the projects were detailed site / land surveys to enable the drafting and production of site plans of areas within the city that were due for complete redevelopment.

MEB

1969-1975 My first full time employment was as a junior draughtswoman in the mains courses record department. I attended surveying and engineering drawing and construction technology and progressed to senior draughtsperson. The design/ survey work undertaken ranged from underground and overhead records surveys to design of substations and underground jointing chambers.
